

Quality Policy Statement

Bullock Consulting is committed to meeting the needs and expectations of our clients through innovation and constant improvement of its business processes.

Our company mission is to provide excellence in business practice to its internal and external clients.

To fulfil the mission, Bullock Consulting will maintain a practical but comprehensive Quality Management System (QMS) based on its stated commitment to customer satisfaction and continuous improvement of resources, methods and efficiency.

This is achieved by:

- A regular review of the QMS to identify existing and emerging compliance issues.
- Maintaining, monitoring, reviewing, auditing and continually improving the QMS.
- Providing sufficient and appropriate resources to implement and maintain the QMS.
- Engaging and retaining suitably qualified and experienced staff.
- Educating and training in order to continually improve the skills of our people, awareness and knowledge of quality issues and practices and our business as a whole.
- Identifying, reporting, investigating and resolving all non-conformances and taking action to prevent recurrence.
- Establishing, reviewing and communicating performance measures and taking action to improve outcomes.
- Implementing and maintaining an effective communication network to ensure all employees understand and contribute to the continual improvement achieved by an effective QMS.
